LECTURERS REINSTATED

Mysore, Nov. 3

Three lecturers of the D. Baumiah's College have been reinstated following a direction by the Mysore University Syndicate to the college authorities.

The Syndicate in its resolution had directed that the three lecturers, Sri M. Sanaulla Khan, Smt. Regina Devaraj and Sri G.S. NageshRao should be reinstated without break of service as their termination was "not justifiable".

It has also directed the Principal to form immediately a GoverningCouncil in the college and "to obey all the directions given by the University in future". In future termination of any staff member should be done only with prior approval of the University.

It may be recalled here that the termination of the lecturers had resulted in an agitation by all the private college teachers. The University later had constituted a 3-man subcommittee to inquire into the "indiscriminate terminations" by private college managements.

LINK BETWEEN LANGUAGES URGED

Mysore, Nov. 10

Dr. V.K.R.V. Rao, former Education Minister, yesterday underlined the urgent need for communication between various Indian languages to end violence in the name of language and to establish a socialistic society.

He was inaugurating a three-day conference of voluntary organisations engaged in the propagation and development of Indian languages at the Central Institute of Indian Languages.

Dr. Rao said the solution for the language problem in the country was to find a common and simplest method of learning the Indian languages and thus establish a link between them.

Referring to the linguistic States, he said a linguistic State does not mean that there should be no other minority language at all in that State. "We cannot think of linguistic State for every language", he added.

Vice-Chancellor D. JavareGowda, who presided, said India had a number of languages and it was necessary that major languages should be developed.

TAMIL NADU ASSEMBLY ADJOURNED

Speaker Suggests Fresh Poll

Tamil Nadu Assembly Speaker K.A. Mathialagan yesterday adjourned the Assembly to Dec. 5 after suggesting to the ruling DMK party to seek 'fresh mandate' from the people.

The dramatic and unprecedented move came on the opening day of the winter session of the Assembly amidst the deepening political crisis in the State in the wake of the split in the DMK party.

The ruling party also gave notice of a motion for the removal of Sri Mathialagan. Sri Mathialagan announced the receipt of the no-confidence motion against him and fixed Nov. 14 (today) the date for discussion of the motion. The House then was caught up in the prolonged wrangle on the competence of the Karunanidhi Ministry continuing, on a point of order raised by ADMK leader M.G. Ramachandran.

He contended that the Karunanidhi Ministry had lost the support of the ruling partymen and the public at large and wanted a ruling whether the Ministry was competent to continue.

The Speaker said though the Government enjoyed majority on the floor of the House, it could seek a fresh mandate from the people in view of the "tension" prevailing outside following the split.

Referring to the situation prevailing outside the State, he alleged that "there is no security of life and property and schools and colleges remain closed. Can this be called a normal situation?"

Readers' Forum :

CITY ROADS

Our Municipality wants waking up. Most of the city roads, viz. Railway Station Road, Mission Hospital Road, Bus Stand Road, Kabir Road, Sawday Road and its main crossings are badly broken up by digging for sanitation, water pipe lines etc. On dark night it is positively dangerous for motors, scooters or carriages to pass these ways. It is scandalous that we should be inconvenienced in these ways for months and I hope the public will bring pressure to bear on those responsible so that the roads may be put in thorough repair without further delay.

KUVEMPU REITERATES 2 LANGUAGE FORMULA

Mysore, Nov. 16

Poet Laureate K. V. Puttappa yesterday strongly opposed the three-language formula and reiterated his two-language formula among the multiple languages.

Delivering the valedictory address of the Kannada Rajyotsava celebrations under the auspices of the Kannada Pakshas, he said the three-language formula consisted imposition of two languages, English and Hindi, on the people. Imposition of any language on the people was against democratic principles.

The two-language among multiple languages formula suited not only democratic principles, but gave the choice to students to select the languages they liked for their study. Even Sanskrit or any foreign language could be chosen by the studeat.

This formula would also put an end to the language problem and the violent agitations in the name of languages. The cause of Kannada would not also suffer, Dr. Puttappa said.

Sri T. R. Subba Rao welcomed the gathering and donated the Bhuvaneswari idol to the Kuvempu Education Trust.

GOVT. TO TAKEOVER RAYANAKERE FARM

Mysore, Nov. 20

The State Government has decided to takeover the Rayanakere Dairy Farm,near the city, which belonged to the Palace, to develop it as a dairy farm on the lines of theHesaraghatta farm in Bangalore.

Disclosing this Chief Minister Devaraj Urs said yesterday the Rayanakere farm was not being used now and it had some facilities suitable for developing it into a dairy farm. He welcomed co-operation from the Indo-Danish project, now helping the Hesarghatta farm, to develop Rayanakere.

Inaugurating the Government Dairy, Sri Urs dsplored the delay of six years in the construction of the dairy. "We should have started one such dairy every year during the six years, but now we have to feel content that at least one has been commissioned", he said.

He asked the authorities to see that within the next six months, the capacity was increased from 2,500 to 10,000 litres.

Sri N. Chikke Gowda, Minister of State for Animal Husbandry, pleaded for a dairy development corporation in the State.

Welcoming the gathering, Sri P. P. Karumbia, Director of Animal Husbandry, suggsted reorganisation of the department. There was an urgent need for intensive cattle development scheme in the district, he said.

SriC. N.MancheGowda, Joint Director, proposed a vote of thanks.

Palace To Become Museum

Mysore, Nov. 20

The former Maharaja had agreed to the proposal of the Government to convert the Palace into a trust to house a museum there with all the Palace properties and antiques, Chief Minister Devaraj Urs said yesterday.

Laying the foundation stone for the new exhibition buildings at Doddakere maidan, he said a nominal fee would be collected from the public visiting the palace.

The Government had proposed Rs. 50 lakhs for the construction of the exhibition. It would take a few years to complete the construction. However, it had been decided to conduct the exhibition next year in Doddakere and hand over the present building to the medical college, he said.

He made a strong plea for maintaining the architectural beauty of Mysore in constructing the new buildings. The city should be developed as a cultural and educational centre and new industries should be set up at least 10 miles away from the city, Sri Urs suggested.

In order to maintain and develop important public places like parks and gardens and to avoid private hands securing these lands by influence, the Government might have to think of passing an Act, he said.

He pointed out that there were efforts by some influential people to secure the Nishat Bagh area in Mysore and the Cubbon Park in Bangalore and this has been curbed.

TYRE, YEAST PLANTS SOON

The Centre had given clearance for the setting up of a tyre factory near Mysore City and the work on the factory was expected to start soon, said Industries Minister S. M. Krishna.

Laying the foundation stone for the sports campus, he said the Government had also approved obtaining of technical know-how from Australia for the Rs. 1-crore bakers' yeast manufacturing unit to be located in the City.

The Minister said that in the next 10 years Mysore City would witness phenomenal progress as the district had been declared industrially backward because of the necessary infra-structure it had. There would be no room for the criticism that Government was adopting a step-motherly attitude towards the city.

He said tenders had been invited from all over the country for the construction of sports stadium and exhibition.

Welcoming the gathering Divisional Commissioner D. J. Balaraj said the exhibition and sports campus would cost Rs. 75 lakhs and the children's amusement park Rs. 35 lakhs. Sri B. S. Hanuman, Director of Industries, proposed a vote of thanks.

Development Of Srirangapatna

Mysore, Nov. 22

Tourism Minister Azeez Sait said yesterday that the State Government would submit a project report to the Centre next year for the development of the historic town, Srirangapatna.

Presiding over the valedictory function of the Dasara Exhibition, he said that Prime Minister Indira Gandhi had expressed her desire to participate in any function associated with Tippu Sultan, a great national hero, during the silver jubilee year of Independence.

She might visit Srirangapatna before the jubilee year ended, Sri Sait said.

The Minister assured that the Dasara festivities would be made more attractive next year. The Exhibition would be conducted at Doddakere and the present building would be handed over to the Medical College.

Although every one who visited Mysore City had a word of praise for its cleanliness and beauty, not much had been done for its development and there were large number of people unemployed in the city. Industries, therefore, should be started near the city, he said.

Municipal Administration Minister B. Basavalingappa distributing prizes, strongly criticised the officials and said they were mostly interested in the promotions and pay than meting out 'social justice' to the people, particularly the poor.

It was high time they realised their responsibilities and feel that they were partners in building up the country. Although he had suggested changes in the construction of model houses, the Housing Board officials continued to adopt the same old pattern. "I do not know for how long this could be tolerated", he said

Exhibition Secretary H. R. Ginganna said 3.5 lakh people had visited the exhibition. The income from gate collection was Rs. 1.87 lakhs.

Assistant Dirhctor of Industries and Commece S. Obeidulla welcomed the gathering. Exhibition Assistant Secretary Veerabhadrachar proposed a vote of thanks.

All Town Panchayats Upgraded

Mysore, Nov. 22

The State Government had issued a notification upgrading all the 55 town panchayats in the State into municipalities, Municipal Administration Minister B. Basavalingappa said yesterday.

The new municipalities would not be able to participate in the taluk development board elections. The Minister said with conversion of these town panchayats which included a population from 5,000 to 25,000, they would be in a position to serve the rate-payers better.

Sri Basavalingappa said the 1964 Mysore Municipalities Act would be amended to put a complete prohibition against misuse of funds by the municipalities. The amendment to be moved in the forthcoming Assembly session would have provisions to control unbridled activities of the municipalities and have prudent eye on the wise spending of public funds and up-keep of property by them.

He said a bill would also be introduced in the Assembly for owning flats by public and also a bill for the creation of the slum clearance board.

Channabasappa Attacks Critics

Mysore, Nov. 23

Public Works Minister H. M. Channabasappa vehemently criticised the statements attacking the Government for inadequate relief measures in the northern parts of the State.

The critics were trying to make "political gain" out of the situation and fish in troubled waters, he said.

Sri Channabasappa was laying the foundation stone for the Rs.1.97-lakh railway underbridge near K. G. Koppal this morning. Municipal President K.N. Somasundaram presided.

The Minister said that he had not seen such a serious drought as in Gulbarga and Bijapur during the past 40 years. The Government had taken all steps to meet the situation. There were 3-4 lakhs people employed and nearly Rs. 10 lakhs was being spent every day. Officials had been given a blank cheque to take up any relief work. A few days back1015 lorry loads of fodder had been supplied to these areas.

Instead of helping the drought affected people, some people in Bangalore were issuing press statements criticising the Government, he accused.

Sri Channabasappa said the State today was facing a grave situation. All efforts should be made to increase production. He was for a ban on lock-outs and strikes, he said.

CALL TO END LITERARY AWARDS

Mysore, Nov. 23

"The business of giving awards and patronage to literary works by various sahitya academies must stop and the Government must redefine its role regarding the policy on the promotion of literature", Sri Kushwant Singh, renowned author and Editor "Illustrated Weekly of India" said yesterday.

Delivering two special lectures on "The Waste Land of Indian Culture" and "English Writing by Indians" at the Mysore University Prasaranga, he said he believed in discouraging young writers because survival of the fittest even in literature was important. This would encourage writers to take to writing seriously, instead of premium in recognition becoming an aim by itself.

In the last 25 years there was explosion in writings in quantity. but not in quality. We had not produced one single book that would stand the test of time, eSri Kushwant Singh said.

10-Year Plan For Bridges

Mysore, Nov. 24

The Government had prepared a 10-year plan for construction of bridges wherever necessary in the State. It was expected to cost Rs. 25 to 30 crores and the Mysore Construction Corporations would be authorised to raise loans for the purpose, Public Works Minister H.M. Channabasappa said yesterday.

Releasing the silver jubilee souvenir of "Vijaya", the Kannada Daily, he said after the completion of the bridge a toll would be collected so that the loans could be paid back.

He said the Government would be spending Rs. 3-5 crores before March next for providing lift irrigation.

Sri Channabasappa said that a 'blank cheque' had been given to the officials in the drought-hit areas to take up relief measures. He strongly criticised the Opposition leaders' attitude on the relief measures.

Newspapers, he said, should give more importance to constructive ideas and criticisms and not for violent incidents. Violence in the name of language or border would not help the economic progress of the country, the Minister added.

Sri A. Ramanna, Editor of the Daily, welcomed the gathering. Sri T.Narayana, Editor, Mysore Patrike, presided Sri Bhagwan proposed a vote of thanks.

Poll Promises Not Fulfilled SAYS GURUPADASWAMY

Mysore, Dec. 2

Sri M. S. Gurupadaswamy, Congress (O) leader, charged the ruling Congress yesterday of failing to implement the revolutionary reforms promised by the party during the two previous elections.

Speaking to newsmen, he said the political party in power and the administration, which were the chief instruments of implementing the policies and programmes, were in a state of disarray. Besides, there was too much of shifting and changing in the political decisions at the Centre.

Need To Produce More Books

Mysore, Dec. 6

The need to produce and popularise more books in the country was emphasised by Dr. H. M. Nayak, Director, Institute of Kannada Studies, yesterday.

Inaugurating the 15-day exhibition of Soviet books at the Co-operators' Home, Dr. Nayak regretted that India occupied the last place in production and use of books. While on an average 140 books were used by 10 lakhs of people in the world, in India it was less than 20, he said.

Soviet Union now occupied the first place in production of books. It was producing 75,000 books per year as against 59,000 in America, 31,000 in Britain and 11,403 in India.

As many 58,000 books were published in Russian language alone in the Soviet Union. In Germany 33,000 books and in Japan 25,000 books were published in their national laoguages. The production of books, therefore, was not in English alone as many people thought, he said.

Mr. Lunikov of the Representation in USSR said books could play an important role in building friendship between two nation. The Soviet Union was the world's biggest book producer, he said.

Sri D. R. Krishna Murthy of the Indo-Soviet Cultural Society welcomed the gathering. Sri Ramanand proposed a vote of thanks.

Plea For Better Edn. From Primary Level

Mysore, Dec. 6

The process to impart better education should start at the village level. Only if a determined effort was made to raise the standard of education from the primary level, then only we could have better educated and disciplined students, Sri V. K. Nataraj, Institute of development Studies, Manasa Gangotri, said on Saturday.

Speaking on the occasion of the fourth anniversary of the Leo Club, he said that the sheer number of students in the under-graduate courses breech any sort of rapport that could exist between the teachers and the students.

The club distributed examination fees for 24 merited students appearing for SSLC examination and Rs. 200 worth of drugs to the Lions Free Children's Clinic. The drugs were received by Sri Doulatram, Lions Club President. Sri K. V. Shanmukhiah inducted three new members.

Club President Mayur Derodra welcomed the gathering and traced the history of the club. Sri V. K. Radhakrishnan spoke on Leoism. Secretary Mathew P. Ninan proposed a vote of thanks.

Probe Demand On Dasara Fete

Bangalore, Dec. 6

The Opposition strongly demanded in the Assembly yesterday, an impartial inquiry into the "Jayalalitha Affair" sparked off during the recent DasaraCultural festival.

Despite the Labour Minister defending the action of both the Chairman of the Dasara Cultural and Film festival Sub-Committee and the Mysore City Police, the Opposition expressed its dissatisfaction with the reply and informed that the matter would be raised again today.

The house which was having a two-and-a-half hour debate on the incident, on a motion given notice by four Opposition members witnessed heated exchanges between the two sides.

Sri Sait defended the action of the police complaint filed by Sri K.K. Murthy under Sec. 420, IPC. He contended the artiste had failed to fulfil the contract and also failed to return the amount received as advance. He said adeaquate police protection had been given to the artiste both at the studio and at the hotel where she stayed. Also, the artiste had not been ill-treated at the police station.

Sri Vatal Nagaraj and Sri Deve Gowda challenged the statement of the Minister. While Sri Nagaraj demanded a Judicial enquiry into the episode,

Delay In Sugar Release Criticised

Mysore, Dec. 9

The delay in the supply of sugar and other essential commodities to the fair price depots every month was strongly criticised by members in the City Municipal Council yesterday. Vice-President D. Appajappa was in the chair.

Sri B.A.Belliyappa (Communist) complained that although already eight days had passed in December, quota of sugar had not been released by the Deputy Commissioner. Other food articles like wheat and wheat products were being supplied in meagre quantities.

It looked as though the Food Department officials and the merchants had come to some understanding by delaying the release of quota, he said.

Sri Belliyappa criticised the Government for not having taken steps to conduct the municipal council elections. The Council term would end on Dec.31. Presonal animosity and party politics were responsible for this delay, he charged.

Sri L. Chikkarangappa (Cong) said that every month there was delay in giving quota of sugar and other food products. This was causing great hardship to the people. Quota should be released on first of every month, he said.

The way in which the study tour of the Standing Committee members was being put through for approval was objected by Sri M.N. Thimmiah. Approval was being obtained by circulation for the tour and where was the hurry to get the proposal sanctioned on the eve of the Council expiry, he questioned.

Sri B.C.Lingiah (Cong) charged that the Centre was showing discrimination to Mysore by not fulfilling its promise to start an AIR station in the city.

Dr. P.D. Krishnaswamy said that the officials and councillors should give more attention to the discharge of obligatory duties. Sri Chowdiah complained of traffic inconvenience by lorries in Santhepet.

Sri M. K. Lingiah, suggested construction of a multi-storeyed building to house all offices in the city.

BHYRAPPA REJECTS FILM AWARD

Mysore, Dec. 9

Dr. S. L. Bhyrappa, author of the novel "Vamshavriksha", has rejected the best film story award of Rs. 1,500 and a certificate of merit given to him by the State Government.

In a letter to the Director, Film Unit, he said that the acceptance of a "third degree prize" like the one announced damaged the standing of any artiste in his own field. He considered therefore that the award did not deserve his acceptance.

He pointed out that it was on the creative genius of the novelist that the artistic genius of the components of the film was based. Unfortunatley that fact was lost sight of by the Government in their highlighting the producer and the artistes. The novel had been treated as a story written for the film.

"As I have said, I did not write my novel as a story for the film and I would have been happy if the artistes who filmed it got due recognition and my name was not brought in

But you have not only brought in my name but have treated it in a disrespectful way by declaring a niggardly amount of Rs. 1,500 and a so-called "Certificate of Merit", Dr. Bhyrappa said.

EXTENSIVE DAMAGE BY DAM BURST

Mysore, Dec. 11

The burst of the Chikkahole dam, eight miles from Chamarajanagar, has caused extensive damage to standing crops, property, apart from a toll of 12 people so far.

Within 50 hours of breach, the reservoir had lost over 30 MCFT of water through the 150 feet breach of 1,500-foot-long dam yesterday. From 376 MCFT, when the level was said to be the maximum height of 74 before the breach at about 10-45 a. m. on Dec. 8, the storage had come down to 21 MCFT in the reservoir. Water was still rushing out through the dam. The water level at about 11 a. m. yesterday had come down to 38 feet from the maximum 74 feet.

While the exact reason for the dam burst is yet to be determined, according to an official it was not due to failure to open the four sluices of the dam in time. In fact all the four shutters had been opened by about four feet when the level reached the maximum height, he claimed.

He said the level in the dam was 69 feet on Dec. 7. As the level was raising, the gates began to be opened by hand at 3 a.m. on Dec. 8. The level by then had reached the safety mark of 74 feet. With a sudden explosion the breach took place at about 10-45 a.m. on Dec. 8, he said.

The burst occurred at the place where some two years ago a breach had taken place. The breach had been repaired, but it was still a weak point, it was said.

A party of newsmen from Mysore who toured the area saw the wide gap in the dam and fury of the water still rushing out from the dam. A little away from the bridge at the down stream, the traffic bridge between Mysore and Satyamangalam had been completely washed away by the floods disconnecting the road link.

The three taluks which have been affected by the floods are Yelandur, Chamarajanagar and Kollegal. The worst affected taluk is Yelandur where the damage is estimated to be about Rs. one crore.

Out of 4,000 acres 3,000 acres of paddy crop, 500 acres of sugar cane, 1,000 acres of mulberry crop have been damaged. Five major and two minor tanks have been breached. About 500 cattle have been washed away. In 14 villages 2,290 houses have collapsed and 10,150 people are affected, according to the Tahsildar's assessment.

Two units of Military Engineering Group, which were assisting rescue operations, have been withdrawn following improvement in the situation.

Public works Minister H. M. Channabasappa toured the affected areas yesterday. The Chief Secretary has sanctioned Rs. 50,000 for relief works and Rs. 2 lakhs to be disbursed as loans to the affected people.

Legislative Council Deputy Chairman T. N. Narasimha Murthy has urged the Government to take relief measures on war-footing and early construction of the dam to help irrigate the 7,000 acres.

Congress (O) Leader M.S. Gurupadaswamy has urged the Government to send a fact-finding team to the three taluks to assess the damage.

Plea For Hiriyanna Chair In Varsity

Mysore, Dec. 15

He was a great Pandit in the true sense of term and kept busy throughout his life in pursuit of knowledge and reached its heights. Unfortunately the number of such traditional pandits was reducing and when they completely vanish the Indian scholarship would suffer greatly, the Governor said.

We were honouring ourselves by celebrating his birth centenary and trying to recapture his learning and scholarship Sri Sukhadia said and added his qualities of scholarship and simplicity needed to be practised by all.

Education Minister A. R. Badrinarayan called upon students to follow the footsteps of great teachers like Prof Hiriyanna and gain as much knowledge as possible in the student days. Otherwise they might have to regret in later days of of their life, he said.

Prof. N. A. Nikam, former Vice-Chancellor, suggested establishment of a chair in Indian philosophy to the memory of Prof. Hiriyanna in the Mysore University. Drs. Asked To Serve In Villages

Mysore, Dec. 16

Governor Mohanlal Sukhadia called upon medical graduates not to hanker after Government jobs, but fare the risk of establishing themselves independently in rural areas where there was need for medical facilities.

Inaugurating a three-day refresher course under the auspices of the Indian Medical Association, Mysore Branch, the Governor said that to deny the vast majority of people who live in rural areas proper medical facilities was something which no Government could countenance.

"All the money that Government spends on providing medical facilities to the people cannot go only to 20 per cent of the population, to the utter neglect of the remaining 80 per cent. On one hand we have a glut of medical graduates amongst the unemployed in our urban areas and on the other, we have a serious shortage of doctors in many villages of some backward States. Educated youth should realise that both the town and the village are a part of one and the same sociological and environmental set up," Sri Sukhadia said.

He called upon doctors to keep abreast of the latest trends in medicine. Otherwise the advance of medical science would be denied to the majority of the people and outdated treatment would continue.

Dr. V. Ramachandra, Dean, Medical College inaugurating the scientific session said the refresher course should be a continuous process.

Dr. K.V.Ghorpade, President, Mysore Medical Association, who presided, said the association had planned a job survey for doctors and also proposed to adopt villages to provide medical facilities.

Association President M.L. Mariswamy welcomed the gathering and Dr. Rama Setty read a report.

NATIONLISATION OF TEXTBOOKS FLAYED

Mysore, Dec. 23

Dr. K. Shivarama Karanth, noted Kannada writer, yesterday called for developing reading habit particularly among the youth and suggested a bold and far-reaching programme for the purpose.

Inaugurating the international book year celebrations under the auspices of the Mysore University Library at ManasaGangotri, he said the present education system and the textbooks, which create no interest in any subject, were chiefly responsible for the lack of reading habit among youth.

The dream of spreading the reading habit and production of good books was useless without giving up the "stupid" business of nationalisation of textbooks which had been done under the pretext of supplying low-rate textbooks without giving consideration to quality and competitive production of books, Dr. Karanth said.

The Mysore University Private College Teacher's Association has threatened to call upon its members to boycott the valuation and other works connected with the PUC examinations of March-April 1973 unless the PUC Board withdrew its new method of appointing examiners and reverted to the method prevailing in the Mysore and the Bangalore Universities.

In a resolution, adopted at the meeting of the Association's Managing Committee here, it was pointed out that it is humiliating to the teachers that the Board should call for applications for appointing examiners with application fees.

Rejection Clarified

Mysore, Dec. 30

Dr. S. L. Bhyrappa, noted novelist, did not reject the State award of Rs. 1500 and a certificate of merit given to his novel "Vamsha Vruksha", which was also filmised, because the amount was trivial. In a statement, issued here yesterday, he has stated that the inference that he rejected the award because the amount was meagre betrayed a lack of proper understanding.

His letter, to the Director of Film Unit, rejecting the award did not suggest that the author's award should be monitarily equal to the producer's award. But the letter did suggest that the relative contribution to the artistic success of the film by the director, artists, and the original literary work should be thought of more rationally. This suggestion had been made for use of future award decisions and not for his case.

He has also stated that he has real respect for the competence of all the artists and directors of Vamsha Vruksha. All of them, he says, are his friends. "I will appreciate if those who think of this problem do not read any personal aspersions and raise this to a discussion of principles", he concludes.

RAO DEFENDS CAUVERY LINK

Union Irrigation and Power Minister K.L. Rao yesterday came out very strongly in defence of the proposed Ganga-Cauvery link as part of a national water grid.

Replying to critics of the proposed scheme, Dr. Rao said the only answer to the drought problem was the transport of water from perennial rivers.

The national water grid was "absolutely necessary" if water was to be provided to the chronically drought-affected areas in the country where nearly one-third of the country's population lives, he said.

The Minister revealed that the Centre has approved investigations to be taken up on the design and construction problems. A separate organisation might be set up for the purpose of involving all the States concerned.

Dr. Rao referred to the criticism that the proposed canal did not touch Mysore. He said the canal would bring indirect benefit to the drought-affected areas in Mysore by making available more waters to the State from the rivers now meeting the needs of the States downstream.

Much of the Cauvery waters irrigate the land in Tamil Nadu and with the Ganga water pouring into the Cauvery at the upper anicut point, Mysore can store more water at the Krishnarajasagar, he argued.

Separate Archaeological Circle Urged

Mysore, Jan. 13

A strong plea for the setting up of a separate archaeological circle for the better care and preservation of archaeological monuments in Mysore State was made by Governor Mohanlal Sukhadia, Education Minister A. R. Badrinarayan and Vice-Chancellor D. Javare Gowda here this morning.

Presiding over the 23rd meeting of the Central Advisory Board of Archaeology under the Archaeological Survey of India at Manasa Gangotri, Sri Sukhadia said the monuments in the State were now being taken care of by the Southern Circle. The work to be done by this circle in maintaining the relics which were spread over in almost all villages in the State was too much.

Inaugurating the archaeological exhibition, Sri Badrinarayan said monuments in the State were distributed all over and they were being looked after by two circles. A separate circle for the monuments in the State should be set up, he requested the Union Minister, Prof. Nurul Hasan, who inaugurated the meeting.

There was a feeling that the monuments in the State were being neglected, said Prof. Javare Gowda. It would be appropriate if a separate circle was set up with its headquarters in the city, he added.

Sri M. N. Deshpande, Director-General, welcomed the gathering. Sri Thapar, Secretary General, Advisory Board, proposed a vote of thanks.

SCHEMES TO IMPROVE CITY

Civic Administrator's Proposals

Mysore, Jan. 20

The resolution of the City Municipal Council to raise the status of the city to that of a corporation had been forwarded to the State Government, Sri D. J. Balaraj, Divisional Commissioner and Administrator of the City Municipality, said yesterday.

At a reception accorded to the President, Vice-Presidents and Councillors at the end of their term, Sri Balaraj expressed the hope that the Government would convert the Council into a corporation. If the Council got the status of a corporation, it would mean additional responsibility also on the civic body and it would have to increase its resources to provide more civic amenities, he said.

The new bye-laws for octroi had been prepared and their implementation would fetch an additional income of Rs. 10-15 lakhs. This year the income from octroi was Rs. 41 lakhs and in 72-73 it would be about Rs. 47 lakhs, the Divisional Commissioner said.

He said there was need to increase income from the sewage farm and the northern outfall and also revise the market rates.

Raferring to the slum areas in the city, he said some of the areas in Mandi and Lashkar Mohallas were very unhygienic and lacked facilities. In order to study and find out the exact reason for the unhygienic conditions in the areas, it was proposed to take two wards and make an intensive study. Intensive cleaning would also be taken up in the areas, Sri Balaraj added.

A Rs. 4-crore scheme for building 1,000 tenements for low-income group like sweepers and municipal employees and developing a market complex at Makkaji Chowk had been prepared. The Centre would be approached for aid under the slum clearance programme, he said.

As regards the proposed stadium at Doddakere, the Divisional Commissioner said the Youth Welfare Department had come forward to give matching grant. He suggested the Municipality contributing Rs. 10 lakhs for the construction of a Rs. 20-lakh stadium.

MINI-THEATRE

He said the Chief Minister had agreed for the construction of a mini-theatre and planatorium at Doddakere.

There was need for a crematorium in the city as in Bangalore. The present cemetery needed to be shifted outside the city, Sri Balaraj added.

Sri K. N. Somasundaram said one of the main achievements during his period was the decision to shift the gujari shops. They had started reading rooms at a dozen places in the city, he said.

He appealed to the Administrator not to levy any new taxes.

Sri B. C. Lingiah, Sri D. Appajappa, former Vice-President, also spoke. Dr. A.M.Venktesh, Health Officer, proposed a vote of thanks.

Mysore, Jan. 22

Although the 1965 land legislation had been passed its important provisions had not come into force at all, Revenue Minister N. Hutchmasti Gowda said here this morning.

If it was merely fixing of land ceiling, the new land legislation could have been brought forward without delay. But there was need for changes in the tenancy system also. A comprehensive Bill, therefore, had to be brought forward. The Joint Select Committee of the Legislature was considering these aspects, the Minister said.

The main purpose of the land reforms was to see that middleman, the landlord was removed and there was direct relationship between the tiller, who should be the owner of the land and the Government, Sri Gowda said.

Vice-Chancellor Javare Gowda, in his presidential address, said that it was not only the land, but any other talent that man posses should become a public trust.

Stressing the need for social and economic equality,he warned that "If we do not remove disparities, we are destined to fail".

SOCIALISM SUITS INDIA

Mysore, Jan. 24

Democracy and socialism were most ideally suited to our country. When even capitalist and communist countries had accepted the concept of equality, there could be no difficulty in democracy and socialism working together in our country, Chief Minister Devaraj Urs contented yesterday.

Initiating the debate on "Socialism is not the bone of democratic contention" organised by the Mysore University, he said that there could be no better system suited to our country than democracy. Revolution and dictatorship could come only if people became atheists, which was impossible in this country.

Our country had taken the best in selecting socialism and democracy as its political and economic philosophies and they could go together like a pair of bullocks of a cart, he added.

Opposing the motion, Sri K. Puttaswamy maintained that it was wrong to say that there was no conflict between democracy and socialism. The trends in the country itself was an indication. If there was no conflict, land reforms would have been ushered long ago, he said.

Revenue Minister N. Hutchmasthi Gowda supported the Chief Minister's arguments and said India was showing to the world that the philosophy of socialism could be successfully implemented through democratic means.

Messrs Tulsidas Dasappa, MP, V. K. Nataraj, Prof. L. Srikantaiah, Raman and Dr. K. Mathew Kurian spoke in favour and Messrs Srirama Reddy, V. Krishna Murthy, T. V. Srinivasa Rao and D.V.Urs spoke opposing the motion.

Training For Civil Servants Urged

Mysore, Jan. 24

The complexion of even conventional functions of the Government had changed following the attainment of Independence. There were new problems and challenges and the modern mechanism of administration had to be geared to meet these new challenges posed by the mounting aspirations of the people, Sri Ram Niwas Mirdha, Minister of State for Home Affairs, said yesterday.

Delivering the valedictory address of the second all India conference of State training institutes in India at the Administrative Training Institute, Sri Mirdha underlined the need for greater attention to systematic training of Government employees.

If the State civil services were to carry out their duties and responsibilities in an effective manner, they will have to be fully prepared, trained and equipped for it, he said.

The Minister favoured regional co-operation between States for organising common training programmes.

Patil Calls For Political Consciousness

Mysore, Feb. 3

MPCC (O) President Sri Veerendra Patil called upon people to develop political consciousness in order to preserve and propogate democracy in the country.

Addressing the District Rural and City Congress workers here on Thursday. Sri Patil stressed the need for developing political consciousness in order to avert being exploited politically and otherwise.

Sri Patil attributed the fall in industrial production to fear of nationalisation. This he said, had created an inflationary situation bringing about an economic crisis. The crisis was the result of the economic policy of the Government, he said and added, this naturally casts doubts in ones minds as to the stability of democracy.

Referring to the food problem, Sri Patil said it was very difficult to procure food in the world market. With the food production in the country going down, though it had nothing to do with the prevailing drought condtitions, he wondered how the Government would meet the situation.

Opposition leader Sri H. D. Deve Gowda said the Government had been appointing administrators to local bodies instead of conducting elections since they feared losing at the polls. The losses the ruling party suffered in various bye-elections had substantiated the fact that the ruling party had lost its popularity on which it comfortably sailed into power.

Plea For Rationing In City

Mysore, Feb. 12

The Mysore City District Congress Committee has requested the State Government to introduce informal rationing immediately in the city.

The committee recently considered the food problem in the city and said that the city had now grown to a population of 3.5lakhs and more than 50 per cent of the population belonged to the working class.

Briefing the pressmen of the decision taken by the Congress Committee, Sri D. Jayadevaraje Urs criticised the paddy procurement policy of the Government and said this half-hearted policy was the cause for price rise. The Government should give up this dual policy, he said.

He suggested that kerosene distribution in the city should be handed over to the co-operatives. He wanted the officials to take action to overcome cement shortage.

Sri Urs said the Congress Committee had formed a five-member cell to trace out black-marketeers in the city and inform the Government for strict action against them. There was a gang of 22 persons operating in this, the DCC President said.

The Government, he said, had allotted 450 quintals of wheat bran this month, double the quantity of the previous month, to overcome wheat bran shortage in the city.

A meeting of the office-bearers of the labour unions affiliated to the INTUC had been convened at the party office on Feb. 18 to form a joint forum, Sri Jayadevaraje Urs added.

Politics Requires Patience, Kengal

Mysore, Feb. 12

Politics was like a cricket test which needs patience and will power, Sri K. Hanumanthaiya, MP, said here yesterday.

Speaking at the annual day of the Adichunchanagiri Students Hostel, Sri Hanumanthaiya said it was easy to think and talk, but what was more important was to implement what we think and talk. This creative work was important in politics also. A politician should realise this, he said.

He said religious institutions should propagate peace and harmony between people and not nurture communalism.

Sri Hanumanthaiya donated Rs. 25,000 to the Hostel.

Dr. M. N. Viswanathaiah, Head of the Department of Geology, Manasa Gangotri, presided. Earlier, Sri A. Ramanna welcomed the gathering. Sri Prakash read a report.

Palace Authorities Claim Denied

Mysore, Feb. 12

The contention of the Palace authorities that the agreement to pay compensation to retrenched employees was between them and the Palace Employees Union and hence payments could not be made to individual employees was baseless, Sri T. He told newsmen that the authorities had joined hands with the union and were helping it to collect a big sum of Rs. 40,000 from the compensation paid to the employees. He urged that payment should be made to individuals in cheques.

Sri Rao also claimed that the Palace authorities had enough money to pay off all the employees but they were delaying payments to only a certain category of the employees.

Rubber Retained By India

Final Test Ends In Draw

The Fifth Test between India and England ended in an insipid draw without the excitement seen in all other Tests.

The Bombay Test ending in a draw has made India to retain the 'rubber' by two victories to one against England in the present series. It is for the third time in succession since 1961 that India has beaten England.

India's captain Ajit Wadekar could have made the last day's play more interesting with a sportive declaration. India 102 for no loss overnight, pushed their score to 5 for 244 at tea when Wadekar declared, leaving England to score 213 runs for victory in 90 minutes.

Mysore's bowler B. S. Chandrasekhar established a new record by taking 35 wickets. He bettered the two previous records of Vinoo Mankad in 1951-52 and Subhash Gupte in 1955-56 of 34 wickets.

The final scores were: India 448 and 244 for 5. England 480 and 67 for 2.

Face Lift To City Rly. Station

Mysore, Feb. 15

The facilities provided at the Mysore City Railway Station had not kept pace with the growing importance of the city and, therefore, it had been proposed to improve the facilities and modernise the railway station, Sri K. N. Channabasappa, General Manager, Southern Railway, said on Tuesday.

Inaugurating the new reservation and enquiry office at the station, he said the demand was only for 200 reservations per day at the city railway station and this was very small compared with demands for reservations from similar centres like Tiruchirapalli and Madurai.

Nearly 200 lorry loads of traffic were moving by road daily and the Railway was not getting its legitimate share of this traffic, he said.

The Mysore-Madras passenger traffic service was faster than the road service and the accommodation provided was sufficient to meet any demand in foreseeable future, Sri Channabasappa said.

So far as the via-Guntakal traffic was concerned, the General Manager said it was proposed to dieselise Nos. 85 and 86 (Bangalore City-Secunderabad Expresses) and to earmark accommodation for Mysore passengers on the Madras-Bombay trains for being availed of at Guntakal.

Sri M. Nagaraja Rao, Divisional Superintendent said that there were proposals to give a face-lift to the railway station as early as possible.

UNPRECEDENTED DROUGHT IN STATE

Bangalore, Feb 16

Governor Mohanlal Sukhadia said yesterday that the situation in the Northern districts was "unprecedented in living memory" and expressed his confidence that the State Government would deal with the drought situation with the liberal assistance of the Centre.

Addressing the joint session of the Legislature, he said the unprecedented conditions of drought and scarcity in 38 taluks in Bidar, Gulbarga, Bijapur, Belgaum and Raichur districts had proved a great challenge to the whole machinery of the Government. Every effort was being made not only to provide immediate relief but also to undertake permanent measures to prevent the recurrence of such conditions.

The Government had drawn up a programme to afford relief at a total cost of Rs. 150 55 crores till the end of September 1973, Sri Sukhadia said.

The Governor said he was expecting that before the session concluded the Bill to change the name of the State as Karnataka would be passed by Parliament.

The power cut was likely to continue till next monsoon. The proposal to take over the wholesale trade in rice and wheat would be implemented during next year. The Government was contemplating the establishment of an University of Health Sciences to integrate all systems of medicines, he said.

BUNDH OBSERVED IN CITY

Cong. Blamed For AP Stir

Mysore, Feb. 16

Factional quarrel among Congressmen was responsible for the separatist agitations in Andhra and Assam and it might not be surprising if the same story was repeated in Mysore also, Communist Party Marxist leader E. M.S. Namboodiripad said yesterday.

Addressing a public meeting, he said the Congress leaders were so much after power that they were prepared to do anything to remain in power. It was only the Congress leaders who had championed the separatist movement in Andhra which had resulted in unprecedented destruction of public property. "They are prepared to destroy the country because of their power hunger", he blamed the Congress.

The CPM leader called upon the people to unite in the struggle to bring down these "careerists and self seekers".

Lease Of Hotels Defended

Bangalore, Feb. 17

Chief Minister Devaraj Urs defended in the Legislative Council yesterday the leasing of the State owned Metropole and KRS hotels to a private party for another period of ten years.

In reply to Sri M. Sathyanarayana Rao, he said the hotels had been leased out to a private party in 1961 for 10 years at a monthly rent of Rs. 3,000. The furniture, crockery and cutlery had been sold to them in 1962 for Rs. 66,432. After the expiry of the lease period, the lease had been extended by one year till Nov. 1971.

During the extension period four fresh tenders had been received in response to theGovernment's call for tenders and the second highest tender of the present private firm managing these hotels had been accepted on a monthly rent of Rs. 10,000 from October 1972 for ten years, Sri Urs said.

The Chief Minister said the Government thought it wise to run the hotels through experienced private people rather than hand them over to the State Tourism Corporation.

Purandara Dasa

Mysore, Feb. 20

"The greatness of Purandara Dasa lies in the fact that he was able to perceive the great diversity in human nature and strove to bring about a kind of harmony between them. Any one who came under his influence was transformed into a sublime soul and marched along the spiritual path shown by him" declared Sri S K.A.Bhagavat, Head Master, Dalvoy High School here. He was addressing the Sarva Bhasha Saraswati Sangha recently on Purandara Dasa and his Kritis.

In his early life, Purandara Dasa who was Srinivasa Nayaka alias Krishnappa Nayaka, was a rich and thriving jewel merchant, but a very hardened miser and a skinflint. It was by a miracle that a great change came over him, and he renounced all his wordly possessions, and sought the blessings of Vyasaraya who was staying at the Court of the Vijayanagar King. Vyasaraya readily accepted him as his disciple and gave him the ankita nama-Purandara Vittala, and showered his blessings on him. Many tales are current which bring out Purandara Dasa's gurubhakti.

His compositions contains the gems of Hindu philosophical thought and are couched in simple language that appeal very much to the common folk, so much so that Vyasaraya gave them collectively the name of "Purandara Upanishad".

Earlier, after Vishnu Sahasranama Parayana, Prof. M. V. Jambunathan, President of the Sangha welcomed the gathering. Sri N. Dasappa proposed a vote of thanks.

Mysore, Feb. 23

The Mysore Jaycees and the All India Institute of Speech and Hearing here are presenting "Red School Bags" to 200 school going deaf children in the city. A child with a red bag will be identified as a deaf child by the people whose attention he draws just as the white cane with a red band identifies a blind.

The deaf being the most normal looking handicapped, it is difficult to identify them. Though the hearing aid worn by the deaf could indicate their handicap, the hearing is not visible from a distance. Thus the motorists and vehicularists would be surprised when a deaf child does not respond to their blaring horn, the child being unaware of the horn. To help motorists as well as the public identify the deaf child the red bag project, the brain child of the Rotary Club of Bombay, has been taken up as part of the birth anniversary celebration of Graham Bell.

Explaining the details of the project, Dr. N. Ratna, Director-in-charge of All India Institute of Speech and Hearing said "the red bag project, it is hoped, will also draw the attention of the public to the problems of the deaf not only on the roads, but also in their way of life. The public, we hope, will also become aware of the available solution for these problems". Sri Paramanand, secretary of the local Jaycees was also present.

Job Oriented Education

Mysore, Feb. 27

The Government is thinking of a job oriented education system, by providing professional courses at the college level. For this discrimination should be exercised in limiting the number of entrants to the colleges, said Education Minister Sri A. R. Badrinarayan, here yesterday.

Declaring open the new science block and the hostel at the Teresian College, Sri Badrinarayan said the present piece-meal way of imparting education at the primary level which was only a half—hearted approach had to be done away with. Together with it the thinking that the Government was solely responsible for imparting education also had to go. For this parents had to take serious interest in the education of their children. This alone could solve the problem and no amount of the Government's anxiety could serve the cause of education if the parents found it convenient not to bother about the education of theirchildren. The fact that a majority of children in the country were without education despite the Government spending a huge amount on education was a black mark on the society, he added.

The Education Minister exhorted educated youth to go to rural areas and take up the cause of education. "Unless the cause of education is taken up on a war footing, the problem will remain to be the same", he said and added, education has expanded to such a magnitude that the Government, inspite of spending a major share of its revenue, cannot cater to the demands of educational institutions.

Earlier Sister Digna, Principal of the college, welcomed and read a report. Dr. M. Fernandez, Bishop of Mysore was present on the occasion.

The new science block has been constructed at a cost of Rs. 15 lakhs, a gift of the People of Federal Republic of Germany through "Miseror". The hostel is a UGC project at a cost of Rs. 3.08 lakhs.

292 Cr. ADDITIONAL LEVIES

Cigarettes, Petrol, Electrical Goods Cost More

A massive dose of additional taxation to the tune of Rs. 292.6 crores has been proposed in the 1973-74 budget presented to Parliament yesterday by Finance Minister Y. B. Chavan.

The additional taxation leaves out articles of mass consumption but comes down heavily on a wide range of luxury and semi-luxury goods used by the middle class.

According to the proposals, excise duties will yield Rs. 118 crores. Cigarettes will yield Rs. 32 crores, petrol 19.20 crores and airconditioners, refrigerators and gramaphone records Rs. 8.33 crores. Other items affected include pipe tabacco, motor spareparts, synthetic yarn and fibres, domestic electrical appliances, decorative plywood, steel ingots and iron and steel products, stainless steel and cinematograpic films.

The new excise and customs levies have come into force from midnight yesterday.

The duty on cigarettes is based on the principle "the better a cigarette the more it pays". There will be marginal effect on prices of lower brands. The price of petrol will go up by nine paise per litre.

POST OFFICES

There are, in all, 1,12,000 post offices throughout the country as against only 20,000 at the time of Independence. There is one post office today for every 5,000 population as against one post office for 16,000 population 25 year ago, and this has been achieved despite the 80 per cent increase in the country's population. The number of postal articles handled per annum has gone up during this period from 230 crores to 667 crores-a three-fold increase.

About 90 per cent of the total number of post offices are in rural areas, as against barely 10 per cent in urban areas. At the time of Independence, a post office was serving, on an average, an area of about 150 sq. km. Today, there is a post office for every 30 sq. km. of area.

Now there are no villages in the country in these categories.

36-CRORE DEFICIT NO NEW TAXES

Central DA For Govt. Staff

Bangalore, March 8

The "drought and development-oriented budget" for 1973-74 presented to the Assembly by Finance Minister M. Y. Ghorpade yesterday shows a huge 36.3-crore deficit. It does not propose any new taxes.

The Bangla Desh refugee levies introduced last year have been retained to provide Rs. 2 crores for a massive Rs. 5-crore rural housing programme.

The dearness allowance of the State Government employees has been raised to the level of the Central DA rates from April 1. The enhancement ranges from Rs. 5 to Rs. 37.50 for all employees in the pay ranges upto Rs. 1,249 per month. This will cost the exchequer Rs. 5.3 crores a year.

The minimum family pension to families or dependents of deceased Government employees has been increased from Rs. 30 to Rs. 40, on par with the Central minimum.

Sri Ghorpade announced the removal of sales tax on paddy and rice, which is now 1.5 per cent and also the two per cent sales tax on thrown silk.

The sales tax structure has been rationalised by transferring 15 items from multi-point to single-point tax. These include goultry and cattle feed, insecticides and pesticides, cooking gas, containers, aluminium ingots, copper, bronze, brass utensils, footwear, paper, pressure cookers and aerated water.

The Minister estimated the expenditure on drought relief at Rs. 54 crores which would be reimbursed by the Centre.

He also announced the decision to establish a post-graduate centre at Nandihalli, near Hospet, provision of Rs. 10 lakhs for a university of health sciences, establishment of Karnataka Forest Industries Corporation, Rs. 13 crores for development of Kannada, construction of two 500-bed Harijan hostels in Bangalore and increase in boarding charges of Harijan college students from Rs. 30 to Rs. 40 per month.

He disclosed that with the assistance of the CFTRI, Mysore, the Government had decided to launch a programme to supply nutritious food packets to expectant and nursing mothers and children in scarcity areas at 25 paise per packet.

Minister Criticises Housing Agency Officials

Mysore, March 10

Municipal Administration and Housing Minister B. Basavalingappa charged that "people in charge of certain positions" were showing lack of enthusiasm and zeal in implementing new housing programmes and were indulging in favouritism in acquiring lands for new sites.

Inaugurating the two-day seminar on "Urban Housing" sponsored by the Institution of Engineers, the City Improvement Trust Board and the Mysore Housing Board, this morning, Sri Basavalingappa expressed his determination to take action against such persons and "put right men on the job to achieve the goals of a socialist Government".

These men in the housing agencies were acquiring lands of "certain caste alone" to favour them. Money had also been blocked in these settlements. "People in position should carry on the committed programmes and not commit fraud on the Government", he warned.

The Minister said that it was not the responsibility of the Government alone to check corruption, nepotism and waste of public funds. It was the duty of the people and social workers also to look to the deeds of the people in position, including Ministers, in a judicious and scrupulous manner.

He called upon the engineers to plan construction of cheap houses lasting 20-25 years for one generation.

Sri H. Kempe Gowda, CITB Chairman, presided. Sub-Centre Chairman G. S. Shivana welcomed and Sri Chikkanna read messages. Secretary S. K. Lakshminarayana spoke and CITB Executive Engineer Noor Ahmed proposed a vote of thanks.

5-CR. LOAN FOR CIVIC PROJECTS

Mysore, March 15

The work on the Rs. 3-crore third stage water supply scheme will begin in full swing in about two months and it will be completed by 1974-75, Municipal Commissioner P. S. Rajasekharappa said yesterday.

Explaining the work done and new schemes proposed to be implemented during the period of the Administrator who took charge on Jan. 6, Sri Rajasekharappa said Rs. 28 lakhs had already been spent under the third stage to procure materials for improving distribution system and meter all connections. In about a year all the connections will be metered, he said.

Sri B. S. Krishna Murthy, Superintending Engineer (PHE), Bangalore, had inspected the areas where there was irregular water supply and okayed the replacing of 1½ inch sub-mains.

To overcome insufficient water supply, 25 borewells had been sunk. At present 30 gallons of water per day per head was being supplied. About 1,800 new connections had been given during the last year, the Commissioner said.

5-CRORE LOAN

The Housing and Urban Development Corporation had agreed to give loan for the Rs. 5-crore housing and city business complex proposed by the Municipality. At a cost of Rs. 2 crores a city centre complex would be constructed behind Visvesvaraya Bhavan to house banks, offices and a super market.

It was also proposed to construct 400 flats to accommodate 2,200 low income families at Madhuvana, Kailasapura, Asokapuram and Paduvarahalli. The Government had sanctioned Rs. 5 lakhs under slum clearance scheme for constructing 16 blocks to accommodate 96 families in Kailasapura.

The construction of 174 shops for new Gujari was nearing completion and would be ready in a month.

ELECTRIC CREMATORIUM

The Centre had sanctioned Rs. 1.75 lakhs under the National Malaria Eradication Programme for eradication of mosquitos. It was also proposed to stop the flow of sewage into Kukkarahalli tank.

Other proposals include construction of an electric crematorium near Madhuvana and Rs. 2.5 lakhs beef slaughter house on the Mahadevapura Road, the Commissioner said.

Chavan Defends Grain Take-over

Finance Minister Y. B. Chavan yesterday made no concessions in his Budget proposals for 1973-74 and vigorously defended the massive dose of Rs. 250 crores taxation. It had been dictated by the twin need to maintain the tempo of development and reduce the level of deficit financing, he said.

Sri Chavan said that the proposed take-over of wholesale trade in wheat would not dislodge those gainfully employed in the trade nor lead to more deficit financing. It would only hurt "the speculators, exploitors and black-marketeers".

US EXPERT'S PLEA FOR NORMAL TIES

Mysore, March 16

There was deterioration in goodwill between the U. S. and India due to serveral reasons including American aid to Pakistan, Indo-Soviet treaty, accusation of CIA activities in India, Dr. Bleecker Dee, History Consultant of the United States Information Service, Bombay, said here yesterday.

Speaking at the Rotary Club on "American Foreign Policy", he said that the U. S. was no longer preponderant in keeping herself a strong political and economic power. President Nixon had realised that U. S. A. had to rationalise its policy.

Dr. Dee strongly felt that there was a new approach in the Nixon doctrine and there was greater stress on attempts to have relaxation of tensions and America was eagerly looking forward for fluid relations in international sphere.

Expressing his assessment of the relations between the U. S. and India, he felt there was a sort of inconsistency in the relations because both the nations expected "little too much of each other".

Dr. Dee frankly admitted that there were differences between the two countries, but wanted an attitude of forgivance and pleaded for normalisation of relationships.

The proposal, therefore, should be given up, they have urged.

MINISTRY MUST QUIT ON MPS' CHARGES, SN

Mysore, March 17

The Mysore Ministry had no face to remain in power if the allegations of corruption and maladministration levelled by the Congress MPs from the State on the D varaj Urs Ministry were true, Congress (O) leader S. Nijalingappa said here this morning.

Addressing a press conference, he referred to the charges of the Mysore MPs on the State Government of corruption, nepotism and inefficiency and said money collection had become a fine trade.

If the State Congress party was really hurt by the charges of Mysore MPs, let it publish the amounts received, souvenirs published and amounts spent, he challenged.

He criticised the appointment of administrators in a number of civic bodies in the State and described it as "undemocratic and immoral",

Referring to Sri Basavalingappa's remarks on Gandhiji and truth at a function in Mysore, he sarcastically said: "He is a great exponent of truth now, greater than Gandhiji".

Sri Nijalingappa said that nationalisation of foodgrains trade would be a failure like the nationalisation of banks. It would only increase corruption and a replacement of a bigger black-marketeer. Instead of nationalisation there should only be proper control on the trade and imprisonment for minimum three months to black marketeers, he suggested.

Vital Role Of Practice

Mysore, March 17

Knowledge can be useful only if it is applied in practice. But every knowledge is a double-edged sword and man must canalise his knowledge in such a way that things become easy for him, said Sri S. Anantha narayana of the Department of English, Maharaja's College, yesterday.

He was addressing the members of the Rotaract Club. Sri C.K. Venkatashe Gowda presided.

Analysing the diff ence between a scientific attitude and tradition, he said practice of teaching was more important than elemental theory. Everything must be go. on proof rather than on trust.

Sri Syed Iqbal Khadri, Club's Staff Adviser, welcomed and Sri S.M. Maxwell Fernandez proposed a vote of thanks.

18 LAKHS WORTH JUNK WITH MSRTC

Mysore, March 19

Over a period of 7 to 8 years the State Road Transport Corporation had accumulated "useless spare parts" worth Rs. 18 lakhs, Chief Minister Devaraj Urs said yesterday.

He was laying the foundation stone of the Rs. 4-lakh MSRTC Bus Station and Depot at Gundlupet. Smt. K. S Nagarathnamma, Assembly Speaker, presided.

The Chief Minister said the spare parts had been purchased by concerned officials after dealings with shop owners who had passed on the useless parts to the MSRTC.

He said the Government had invested Rs. 30 crores in the MSRTC. If such shady dealings and leakage of money were checked, the Corporation could earn over Rs. one crore every year.

Sri Urs regretted lack of "honesty and integrity" on the part of officials and those who held positions in organisations like societies, banks and panchayats.

Officials should realise their responsibility and work with dedication instead of always thinking of promotions and transfers. Pepople in responsible position also should understand their responsibility to the society, he said.

Threatening of action or suspension would not bring in efficiency in administration. This was an old concept. There should be a change of attitude on the part of the officials, the Chief Minister said.

Transport Minister Azeez Sait said the bus stand would be constructed on about five acres and appealed to the Chief Minister to allot another two acres for the purpose.

He said the Corporation would soon introduce buses between Chamarajanagar - Bangalore, Chamarajanagar - Mysore and Gundlupet-Bandipur. The construction of Nanjangud bus stand had been delayed for want of cement and iron, he added.

Smt. Nagarathnamma said the Chief Minister had approved the construction of two tanks in Gundlupet which would benefit 23,000 acres.

Corporation Chairman R. M. Desai welcomed the gathering. Sri Chikkanna presented a memorandum. Sri Rahamathullah proposed a vote of thanks.

Start New Industries, Sait

Mysore, March 22

Labour Minister Azeez Sait yesterday called upon engineering graduates to set up industries independently and assured all help from the Government.

Delivering valedictory address of the Jayachamarajendra Engineering College Students' Union, he said Mysore District had been declared as a backward district and it had plenty of scope for new industries. The Government was also offering many incentives.

The Government was facing a difficult position due to drought and increase in prices. Therefore, it could not look to the unemployment problem alone.

Sri Sait called upon the youngmen in old Mysore area to shed their "homesickness" and accept jobs wherever offered. People here wanted jobs only in their home town unlike the people in North Karnataka who were ready to work in any part of the State. Similarly, the people of Kerala were ready to accept job anywhere, he said.

Dr. B. L Amla, Director, CFTRI, who presided, said that scientists, technologists and engineers should occupy a pivotal role and not the politician in the economic growth of the country. This fact was being realised of late, he said.

Sri Shivaratri Rajendra Swamiji of Suttur Mutt thanked the Government for sanctioning grants to the college from this year.

Sri G. T. Gubbanna, Principal, welcomed. Messrs K. G. Shambiah, Srichand, V.Masood, S.K. Varadarajan and V. S. Gajaraja read reports. Sri M. C. Ganapathy proposed a vote of thanks.

MINISTER BLAMES CO-OPS

Mysore, March 22

Labour Minister Azeez Sait regretted here yesterday that apart from the merchants even co-operatives were indulging in black marketing.

Addressing a public meeting at Town Hall under the auspices of the State Government Employees Association, he said there was a mushroom growth of co-operatives of recent and some of them had been started by one family members in various names. Instead of distributing foodgrains at controlled rates, they were selling them in black market.

The Bundh organised by the foodgrain dealers to protest against the takeover of wholesale foodgrains trade had the backing of some political parties, he charged.

Sri Sait called upon honest and efficient men and also trade unions to start departmental stores and check rise in prices.

Sri K. A. Keshava Murthy, State Association President, said nationalisation of foodgrains trade was an effective remedy for the increasing prices.

Sri S. Krishna Murthy, Vice-President and Smt. Sujatha Radhakrishna spoke.

A resolution was passed supporting nationalisation of foodgrains trade and condemning the dealers for their opposition to the Centre's policy.

Earlier, a procession was also taken out by the Association.

Later at the same place another public meeting was held. Messrs B. A. Belliyappa, Srikanta Sharma and Gopalakrishna spoke. They criticised the Government for failing to implement its assurances to the people and in taking strict action against black-marketeers and hoarders.

N-WEAPONS: CHOICE WITH PEOPLE

Mysore, March 23

"India could produce nuclear weapons. The necessary technology is available in the country", Field Marshal S. H. F. J. Manekshaw said here yesterday.

Addressing a big gathering of over 5,000 students in the Manasa Gangotri Open Air Theatre, the Field Marshal said, if sufficiency had to be achieved it would not be enough if only one bomb was produced. The process had to continue.

Besides manufacturing a bomb, the delivery system should also be developed. Both producing of a bomb and the delivery system cost crores of rupees and need help of all scientists, he said.

"After having produced the bomb what would you do with them? You cannot use it. It is only to be kept in the armoury. You spend crores of rupees and you do not know what to do with it", the Field Marshal said.

Meantime millions of people in the country required food, clothing and housing. "But we cannot have both nuclear weapons and all these good things of life", he said.

Therefore, he said it was for the people and scientists to decide whether we should produce nuclear weapons or not, he added.

Senate Member's Charge On Varsity

Mysore, March 28

Sri K. N. Shivalingiah, member of the Mysore University Senate, has charged the University administration of "failing" to disclose the important discussions of the Senate meeting held on March 24 and 26.

In a clarification to the press, Sri Shivalingiah said that he had criticised in the senate the appointment of B.A.(Hons)degree holders as heads of departments against the rules.

He had also criticised the administration in appointing persons less than five years experience as readers although there were applications with more than the minimum required years of experience.

Sri Shivalingiah had questioned how the Vice-Chancellor could demand Kannada as the State language, when he had failed to implement the same in the University.

TheMysoreUniversity was becoming a second class university by preferring second class master degree holders for appointments instead of first class degree holders, he said.

Sri Shivalingiah said the resolution to start an institution for the study of scientific and democratic socialism was discussed at length. Many members suggested utilising the existing facilities properly for the purpose.

There was strong opposition for appointing three professors in the Kannada Department and one professor in the Folklore branch. Prof. L. Srikantiah had gone to the extent of remarking that the University should close down all its departments and retain only Kannada department, Sri Shivalingiah said.

The administration, he said, was against inviting the press to the Senate meeting. When the resolution tabled by him to invite the press was about to be taken up, the Senate meeting was dissolved by the chair, he said.

Postal Course In Journalism

Mysore, March 28

The Mysore University was thinking of starting the one-year diploma course and also the correspondence course in journalism from the next academic year alone, Vice-Chancellor D. Javare Gowda said yesterday.

Presiding over a function at the Post-Graduate Department of Journalism in Manasa Gangotri, Prof. Gowda said it was the desire of the university to expand the Journalism Department. It would make efforts to provide more facilities to the department, he assured.

Journalism teaching should be more practical so that students after obtaining their degrees could servebetter in newspaper and other offices, he said.

Dr. H. M. Nayak, Director, Institute of Kannada Studies, released a book on "Mysore City Journalists".

He suggested to the Journalism Department to take up the project of publishing life sketches of all the journalists of the State and also bring out a book listing all the newspapers, both alive and [illegible]. This would help to trace the journalism history of the State, Dr. Nayak said.

Sri Agaram Rangiah, who was felicitated on the occasion, said Mysore City has established a record in having a large number of small newspapers. Sri H. L. Srikanta Murthy spoke on Sri Agaram Rangiah.

135 LAKHS COLLECTED IN PADAYATRA

Mysore, March 30

The hour-long Padayatra by Chief Minister Devaraj Urs in the City yesterday netted a record sum of Rs. 135 lakhs to the national small savings.

The colourful procession with decorated elephants, horsemen and band units, started from the Town Hall and vended through Old Santhepet, K. R. Circle, Sayaji Rao Road, Old Bank Road, Gandhi Square and reached Town Hall.

Addressing the gathering at Town Hall, the Chief Minister said the State Government had decided to give priority for construction of irrigation projects and power generation.

It was only through agriculture that economic prosperity could be achieved. Therefore, if importance was given to irrigation projects, it would lay solid foundation for a better future, he said.

Sri Urs admitted that he was not satisfied with the achievements of his Government during the one year period. The drought conditions and other problems had come in the way. The Government this year was spending Rs. 25 crores for relief works in drought-hit areas. It had earmarked a larger sum in the budget next year.

Although the progress was not satisfactory to him, he said, there was no lapse of honest service on the part of the Ministry.

He was confident that within the next two years the State would achieve self-sufficiency in food. People should invest more in small savings and help the Government undertake irrigation and other projects, Sri Urs appealed.

Sri B. Shivanna, Minister of State for Finance, said there was dire need for mobilising resources through small savings.

Finance Commissioner Mani Narayanaswamy said the total collection by Mysore Division had reached nearly Rs. 2.60 crores, including the amount collected in the padayatra, as against the target of Rs. 2.50 crores.

Divisional Commissioner D. J Balraj said Coorg District had stood first in the division collecting Rs. 27 lakhs against the target of Rs 20 lakhs.

Small Savings Officer V. Ramachandra Rao proposed a vote of thanks.

Hang Your Gods In Attic

Basavalingappa Suggests Harijans

Mysore, April 23

Municipal Administration Minister B. Basavalingappa suggested to Harijans here yesterday to bundle up all the photos of gods and goddesses which they were worshipping for the past 5,000years and"hang them in the attic".

If they had no attics in their house, they could throw them in rivers, wells or sewage drains, he suggested.

Sri Basavalingappa said the Harijans were worshipping those photos or nearly 5,000 years. But still they had not come out of their huts. They remained where they were.

He said that out of his income he would spend Rs. 4,000 and print photos of Dr. Ambedkar and distribute them to all Harijans for worshipping.

The Minister said he was using harsh language because persuasive language would not bring in any awareness in the minds of the people who were being suppressed for ages.

Unveiling a portrait of Dr. Ambedkar at Town Hall, the Minister said that Dr. Ambedkar had joined Buddhism when he came to know that Harijans would not get respect and honour in Hinduism.

Dr. Ambedkar left Hinduism saying that he would never die as a Hindu. He revolted against the evils of Hinduism. Therefore he was a prophept among prophets and missionary among missionaries, Sri Basavalingappa said.

Like Dr. Ambedkar Harijans also should now think whether they should remain in Hinduism or not. If the plight of Harijans continued even after another decade, they should decide what they should do, he said.

Conversion Not A Solution

Harijans Told

Mysore, April 23

Social Welfare Minister M. Mallikarjunaswamy cautioned Harijans against leaving Hinduism to overcome exploitation and untouchability.

Presiding over Dr. Ambedkar's birthday celebrations at Town Hall yesterday, he disagreed with the suggestion of Municipal Administration Minister B. Basavalingappa and Sri Jayaprakash Narayan, M.L.A, to leave the Hindu-fold.

This would be an attitude of defeatism. Instead of taking course to such a step and leaving the ignorant Harijans without proper guidance,the Harijans should organise themselves and fight for reformation within the Hindu society, he said.

Sri B. Rachiah and Sri Jayaprakash Narayan spoke. Sri Bommiah welcomed the gathering and Sri M. Shivanna proposed a vote of thanks.

ALL PARTY PANEL ON FOOD

Bangalore, April 25

Chief Minister Devaraj Urs welcomed a suggestion of the Opposition in the Legislative Council yesterday to set up an all-party advisory committee to assist Government in the take-over of the wholesale foodgrain trade.

Defending the take over of wholesale trade in foodgrains, he said there was no other alternative left.

The wholesale merchants had "let down" both the growers and the consumers by their "unscrupulous activities of hoarding and profiteering". The behaviour of the wholesale traders was most anti-social, Sri Urs said.

Mysore, April 25

Scientists would have to produce during the Fifth Plan scientific and technological results which were required by the nation on priority basis, Dr. S. R. Valluri, Director, National Aeronautical Laboratory, Bangalore, said here on Monday.

Inaugurating the second course on general administration at the CFTRI, he said that whereas in the past research programmes had been evolved by scientists themselves, the Government would now require them to work on problems which were more important to the national economy and produce results within prescribed time limit.

Dr. D. P. Pattanayak, Director, Central Institute of Indian Languages, who was the chief guest, said that the funds made available by the Government to research institute, were considerable and the scientists should be prepared to justify the expenditures incurred on them.

Sri A. Rahman of CSIR observed that even today the atmosphere in research laboratories in the country was not so very favourable and efforts should be made to develop a better atomosphere based on new sociological outlook.

Pooling of scientific talents with managerial skill had become more and more necessary today to make talent more effective, said Sri S.S. Sanyal, Consultant, Administrative Staff College of India.

Sri P. N. Chowdhury welcomed the gathering. Sri C. P. Natarajan proposed a vote of thanks.

Devanagari As Common Script

Suggests Sukhadia

Mysore, April 26

Governor Mohanlal Sukhadia yesterday called for evolving a common script for all Indian languages and suggested that Devanagari was best suited for the purpose.

Delivering the third convocation address of the Southern Regional Languages Centre at Manasa Gangotri, he said the evolution of a common script would go a long way in promoting easy understanding of languages. The link of a common script was very valuable one. Otherwise, even the small link that existed today through the Sanskrit language might disappear and we would be left soley with a foreign language.

Suggesting Devanagari as best suited to fill the role, the Governor said that there could be no two opinions about this. Devanagari was not confined to any particular region or language and it had great suitability.

While suggesting Devanagari as the common script, the Governor made it clear that he did not have in mind that Hindi should be imposed on anybody. However, he hoped with the passage of time sufficient goodwill would be created all round which would make it possible to have a national language with the consent of the people of all regions.

Emphasising the need to evolve a common script, Sri Sukhadia said it would be an important step towards preserving the cultural unity and maintaining the emotional integration of the country.

It would also serve the purpose of communication between all parts of the country. More than all, it would remove a big barrier in the learning of languages and make it much easier than it was today.

Welcoming the gathering, Dr. D.P. Pattanayak, Director, Central Institute of Indian Languages, said the Institute so far had trained 463 secondary school teachers deputed from 14 States during the past three years. About 7,000 students were studying languages other than their mother tongue in secondary schools in the country.

D. M. S. Thirumalai presented a report Smt. Krishna Rawal, Messrs K. Ramachandra Panicker, Adikanta Rath, A. Chandrasekhara Rao and Ram Das Wardhwa spoke in the new languages they had learnt.

Vatal Wants a Minister To deal With Drought

Mysore, May 1

The Kannada Chaluvaligar leader Sri Vatal Nagaraj, MLA, who described what he had seen in the drought-hit areas of Gulbarga, Bidar and Bijapur districts during his tour of the area with the legislators team headed by Sri H. M. Channabasappa, blamed the Government for completely failing in alleviating the sufferings of the people.

Addressing a press conference here yesterday, he said the Government could have tackled the problem easily enough if it had started the relief works sufficiently in advance. Unfortunately the relief works were taken up very late and even then they were not publicised.

He also said that the people in the areas could account for more than 70 deaths for want of food though the Government completely denied such reports.

Sri Nagaraj said the Government had failed in properly distributing food to the people in the drought-hit areas. The people there wanted food in preference to wages.

Sri Nagaraj felt that if the Government exclusively entrusted the whole drought relief work to a Minister apart from implementing the report submitted by the legislators who toured the areas with Sri H. M. Channabasappa. This he felt would improve the situation.

Follow Tippu's Ideals, PM

Mysore, May 5

Prime Minister Indira Gandhi yesterday warned the people that disruptive forces were working within and outside the country against India's progress and called upon them to unitedly fight these forces.

Addressing a public meeting at Lal Maidan in Srirangapatna on the occasion of the 174th death anniversary of TippuSultan, she praised Tippu's administrative capacities and heroism.

During the silver jubilee year of India's independence, it was our duty to remember those who fought for country's freedom. She had come to Srirangapatna to pay homage to Tippu Sultan, a great warrior. If Tippu had lived for some more time, possibly the British could not have established themselves in the country, she said.

Tippu was modern in his outlook. His administrative policies held good even today. They could give a new life to the nation. Therefore, we should follow his footsteps and forget our differences and build a united India, the Prime Minister said.

Presenting an address to Smt. Gandhi, Chief Minister Devaraj Urs described Tippu as a great military leader and an administrator who had modern outlook. He could be looked upon as a symbol of our own struggle to achieve national integration and equality of rights, he said.

"After Tippu's fall in 1799, British Historians attempted to distort the study and the picture of this great man and they painted him in the vilest of colours. It is but fit that today an independent and strong republic of India gives a fitting recognition to one of the great heroes of its history" Sri Urs said.

Prince Hyderali Shah, the sixth decendent of Tippu, also spoke. Industries Minister S. M. Krishna welcomed the Prime Minister. Smt. Damayanthi Boregowda, MLA., proposed a vote of thanks. The Hindi speech of Smt. Gandhi was translated into Kannada by Sri Sanadi, MLA.

Looking fresh after a night's rest in the city, Smt. Gandhi had a word with the people who had lined up to see her off at the Race Course and received flowers from some of them. She returned the garlands and boquets to the kids who were present with their parents there.

The Prime Minister was accompanied by Chief Minister Devaraj Urs. She was seen off by Labour Minister Azeez Sait, Divisional Commissioner D. J. Balraj and other local leaders and officials.

"Gods To Gutters"

Nanje Gowda Hits Back

Mysore, May 8

The open confrontation between Municipal Administration Minister B. Basavalingappa and Minister of State for Major Irrigation H. N. Nanje Gowda took a new turn here yesterday.

Indicating his reaction to the reported speech of Sri Basavalingappa in the South Zone Congress meeting at Bangalore on Saturday, Sri Nanje Gowda told newsmen yesterday that people had not voted the Congress party to power to suggest them to throw the photos of "Gods to Gutters" or misinterpret Gandhiji's truth and non-violence.

People like Sardar Patel and Rajiji had though differed from Gandhiji had never tried to cast aspersions on him or misinterpret his definition of truth and non violence, he said.

"Today one may say throw the photos of Gods to gutters. If such things are tolerated, they may even venture to say throw the photos of Gandhiji and Smt. Indira Gandhi to gutters, on the ground that photos of Gods and individuals do not give any material benefit", Sri Nanje Gowda remarked.

It was not stated in the policies and programmes of the Congress to oppose any religion. It was not stated anywhere that any member should misinterpret Gandhiji "In our over enthusiasm we should not give room to the people to think that the Congress is a party of atheists", he said.

Therefore, it was the responsibility of every member in the party to keep up the party's image. Particularly people in responsible position should "not venture to embarrass the party by unwarranted utterances" to the advantage of other parties, the Minister said.

Sri Nanje Gowda said : "There may be many who speak so much about party's ideology and policy, but I am sure the party workers and the people will watch such persons about what they profess and actually practice".

Opp. Leaders' Dig At Minister

Mysore, May 10

A new Basaveswara had born in the State advocating drastic social reforms like throwing the photos of gods to gutters, Opposition leader H. D. Deve Gowda sarcastically attacked Municipal Administration Minister B. Basavalingappa here yesterday.

Speaking at the Basava Jayanthi celebrations organised by the Seva Mandali at Town Hall, he suggested that Chief Minister Devaraj Urs should get the "Basavalinga Leele" written like Chamarasa got "Prabhulinga Leele" written in the 12th Century. This would help the future of Karnataka, Sri Deve Gowda said.

The meeting should pass a resolution to the effect and send it to the Chief Minister, he remarked amidst laughter.

Sri Basava worked as a true social reformer without harming the feelings of any section of the society. But unfortunately some people today had dragged his name towards communalism with political intentions in their mind, he said.

MPCC (O) President Veerendra Patil, who presided, regretted that national character today was at its lowest ebb. The social evils against which Sri Basava fought continued to plague our society with a greater degree, he said and cited the example of the reported burning of a Harijan locality in Madhya Pradesh.

"It was wrong to say that Sri Basava established Veerasaiva cult. He was a great social reformer and he advocated what we now call the socialistic pattern of society in the 12th century itself", Sri Patil said.

Sri C. M. Ibrahim, Youth Congress (O) Convener, had a dig at Sri Basavalingappa without mentioning his name and said that "in some politicians today we see the "Asura Shakti" like in Ravana or Mahishasura because of power in their hands".

Earlier, Sri Thayur Vittalamurthy welcomed the gathering.

MINISTER'S REMARKS FIGURES IN ASSEMBLY

Bangalore, May 11

A demand to spell out the Government's stand on the controversy over Sri B. Basavalingappa's statement to throw photos of Gods to gutters was made in the Assembly yesterday.

Chief Minister Devaraj Urs made it clear that this was a matter in which the Government would not take sides. He conceded the right to express one's opinion and said one could not question it. There was nothing wrong if one expressed his opinion, he said.

He pointed out that the Government was functioning under the Constitution which was secular. As such it had nothing to do with any religion, caste or creed. There was no use, therefore, entering into a discussion on what the Minister had said.

The Association meeting recently under the chairmanship of Sri M. N. Thimmiah urged the Government to also decentralise the powers of the Press Registrar regarding instituting legal proceedings against newspapers for not filing annual statements and returns.

It wanted the necessary powers to be delegated to the Press Information Bureau or any other similar authority. The meeting considered the difficulties experienced by a local publisher in this connection.

The Association also noted with deep disappointment the delay in settlement of advertisement bills by the Department of Information and Tourism and its failure to release commercial publicity to the local dailies this year.
